Hygeia Healthcare 2026 Interim Results Presentation

Forward-Looking Statements

- This presentation may contain certain “forward-looking statements” which are not historical facts, but instead are predictions about future events based on our beliefs as well as assumptions made by and information currently available to our management. Although we believe that our predictions are reasonable, future events are inherently uncertain and our forward-looking statements may turn out to be incorrect. Our forward-looking statements are subject to risks relating to, among other things, the ability of our in-network hospitals to compete effectively and change in the external environment, which could have a material adverse effect on our business operations and future expansion. Our forward-looking statements in this presentation speak only as of the date on which they are made, and we assume no obligation to update any forward-looking statements except as required by applicable law or listing rules. Accordingly, you are strongly cautioned that reliance on any forward-looking statements involves known and unknown risks and uncertainties. All forward-looking statements contained herein are qualified by reference to the cautionary statements set forth in this section.

Use of Adjusted Financial Measures (Non-IFRS Measures)

- The Company has provided adjusted net profit as non-IFRS measures, which is not required by, or presented in accordance with IFRS. The Company believes that the non-IFRS adjusted financial measures provide useful information to investors in understanding and evaluating the Group’s condensed consolidated statement of profit or loss and other comprehensive income in the same manner as they helped the Company’s management, and that the Company’s management and investors may benefit from referring to these non-IFRS adjusted financial measures in assessing the Group’s financial and operating performance from period to period by eliminating impacts of items that the Group does not consider as indicative of the Group’s operating performance. However, the presentation of these non-IFRS financial measures may not be comparable to similarly titled measures presented by other companies as they do not share a standardized meaning. The use of these non-IFRS measures has limitations as an analytical tool, as such, they should not be considered in isolation from, or as substitute for analysis of, the Group’s condensed consolidated statement of profit or loss and other comprehensive income as reported under IFRS. You should not view the non-IFRS adjusted results on a stand-alone basis or as a substitute for results under IFRS.

All other trademarks, service marks or trade names appearing in this presentation that are not identified as marks owned by us are the properties of their respective owners. Audio recording, video recording or disclosure of such materials by any means without the prior consent of Hygeia Healthcare is prohibited. This briefing is not intended to provide a complete statement of the relevant matters. For relevant information, please refer to the Company’s corporate communications published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk) and media designated by the Company.

Business Model of Hygeia Healthcare

A comprehensive healthcare services group
featuring oncology specialties and leading operational efficiency

Maintain Industry-leading Position

- **China's largest oncology healthcare group***
- **Strengthening specialist disciplines, attracting talent and building a trusted healthcare brand**
 - 38 clinical key specialties
 - Nearly 1,000 full-time professionals with advanced qualifications
 - Annual patient service volume steadily increases to nearly 5 million
- **Proven management and operational capabilities**
 - Standardized and refined management to empower its hospitals
 - The number of key specialties in Chang'an Hospital: from 1 to 8
 - The number of key specialties in Hezhou Guangji Hospital: from 0 to 13
 - The annual patient visits of Suzhou Yongding Hospital: from 500,000 to 1.11 million
- **Leading operational efficiency**

Gradually Widen the Moat

- **Specialty feature: oncology + emergency and intensive care**
 - Sustained rise in incidence rates
 - Higher technical barriers
 - Broader growth potential
 - Care for patients' follow-up needs
- **Emerging businesses: diverse healthcare services**
 - Application of innovative technologies
 - Self-paid diagnosis and treatment offerings
 - International healthcare services
 - Commercial insurance

Maintain Long-term Stable Operations

- **Wholly-owned and controlled and for-profit hospitals**
 - Clear equity structure and efficient corporate governance
 - Avoidance of risks of control by minority shareholders or management
- **Self-owned properties – 18 hospitals**
 - Approx. 1,200 mu of land for medical and healthcare use
 - Approx. 940,000 square meters of medical facilities
 - Compliant operations
- **No off-balance-sheet businesses in the same industry**
 - Highly transparent operations
 - Concentrated resource allocation, no peer or upstream-downstream businesses

Committed to Pursuing a Long-term Business with Entry Barrier and Compound-return Value

*According to Frost & Sullivan

Corporate Culture of Hygeia Healthcare

Making healthcare services more accessible and affordable

- The name of Hygeia derives from Hygeia, the goddess of health in Greek mythology, embodying the aspiration to safeguard life and health.
- Committed to 100% patient satisfaction, and continuously enhance patient experience.
- Build value-driven remuneration system to reasonably reflect labour and professional value of medical practitioners.
- Proactively respond to healthcare-reform requirements, maintain compliant operations and earn regulatory recognition

Shareholder return scheme: RMB1.5 billion in 3 years

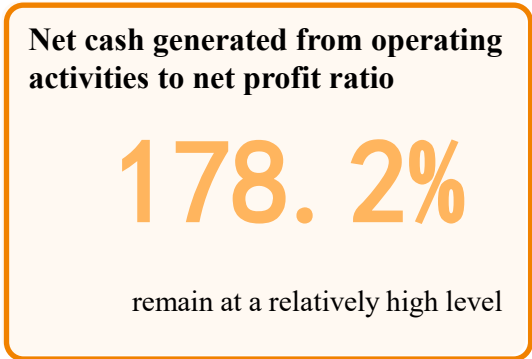

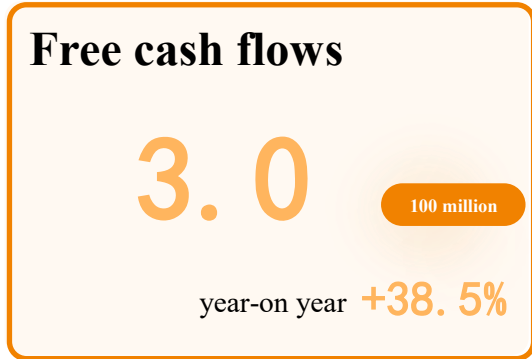

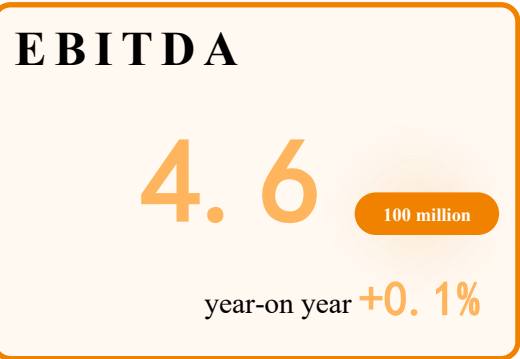

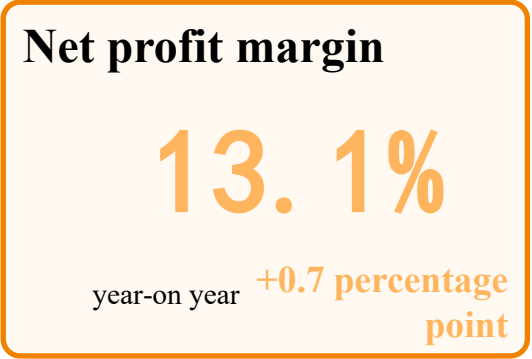

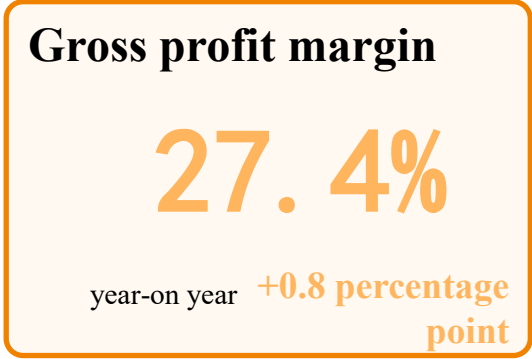

- In August 2024, the Company completed a share repurchase plan of approximately RMB200 million pursuant to the 2024 repurchase mandate, having repurchased 13,025,200 Shares, all of which have been cancelled.
- In December 2025, pursuant to a share repurchase plan of not less than RMB300 million under the 2025 share repurchase mandate, the Company repurchased 12,846,800 Shares, which is still in the process of execution.
- In June 2026, the Company announced that it intended to utilize approximately RMB500 million each year for the three financial years ending December 31, 2028 to provide returns to Shareholders by way of share repurchases and/or dividend distributions.

Adhering to long-termism

- Professor Zhu Yiwen, the founder, has over 40 years of in-depth experience in the healthcare industry. He is a senior clinical medical expert and associate professor. As one of China's first batch of research experts engaged in stereotactic radiosurgery for oncology, he possesses extensive clinical experience in oncological surgery and radiotherapy. He participated in the compilation of China's first monograph "Gamma Knife Radiosurgery". He currently serves as the Vice Chairman of Medical Clinical Specialty Development Expert Committee of the China Medical Foundation.
- The founder has never reduced his shareholding since the listing, with the cumulative number of Shares acquired exceeding 9,600,000 Shares. In particular, he increased his holdings by 3,548,000 Shares in May 2026, and his shareholding ratio has increased to 46.85%, striving to achieve long-term, win-win results for its minority shareholders.

2026 Business Development

1

Steady improvement in critical-care emergency treatment capacity

- Suzhou Yongding Hospital passed **the National Chest Pain Centre certification**
- Chang'an Hospital ranks within the top-third tier among all tertiary-level general hospitals in its province by case-mix-index (CMI) and volume of DRG cases with relative weight (RW) ≥ 2
- Hezhou Guangji Hospital attained top rankings in Hezhou City on two core DRG metrics: CMI and time-efficiency index

2

Upgrading and expanding international medical service offerings

- Chongqing Hygeia Hospital has expanded its international medical ward area to **three floors**, becoming a leading **inbound medical tourism integration demonstration project in Chongqing**
- Expanded scope of participating hospitals: Chang'an Hospital, Suzhou Yongding Hospital, Wuxi Hygeia Hospital, etc.
- Broader Geographical Mix of International Patients : Southeast Asia, Central Asia, Europe, America, etc.
- Broadened clinical-service portfolio: comprehensive oncology therapy, oncology screening, complex surgical interventions, health-management services, etc.

3

Rising proportion of self-pay-service revenue

- Meet the diverse health needs of patients:: **oncology screening, healthcare elderly care integration, medical weight management, medical aesthetic services, wellness management, mental health services, optometry ophthalmology and dental services, etc.**
- Its in-network hospitals have signed agreements with more than **70** insurance companies to become designated hospitals for insurance claims and are gradually rolling out direct settlement

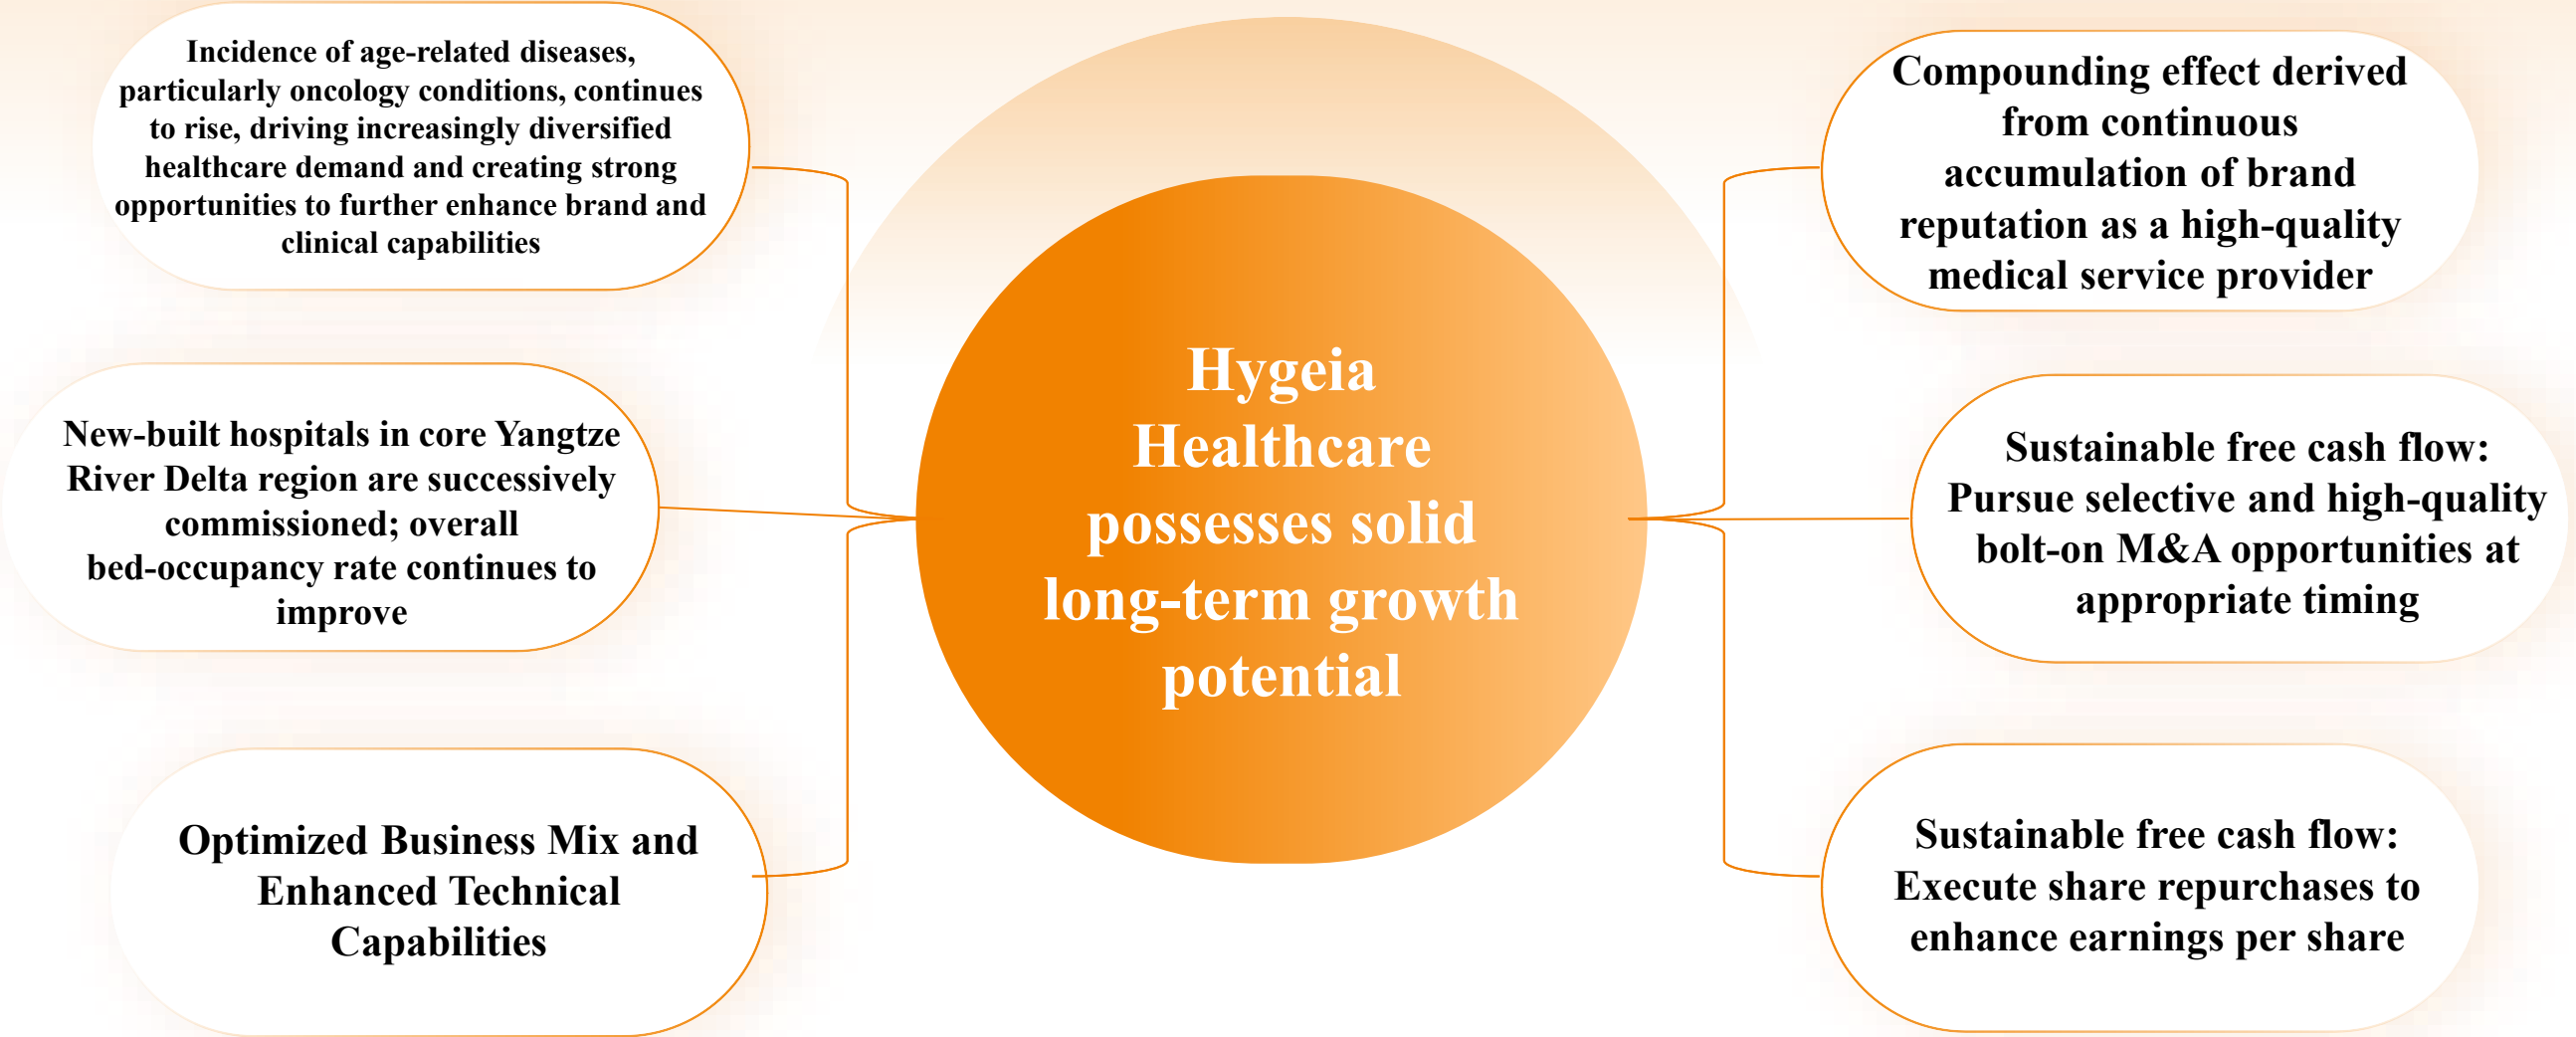

4

Artificial intelligence (AI)

- Exploring clinical-application cooperation on brain-computer-interface (BCI) technology with the Medical School of Tianjin University
- AI-assisted precision radiotherapy; AI-assisted medical-image diagnostics
- AI-empowered supply chain and financial management
- AI-based customer service
